

We are delighted to report our Key Stage 2 results and progress scores for the 2018-19 academic year. As always, we are very proud of the progress and achievement of our children.

The information below compares our attainment with both the local authority and national averages.

- Test results are reported as a scaled score between 80 and 120 with 100 being the nationally expected score for a Year 6 pupil.
- *Progress* is measured by comparing a pupils' end of Key Stage 1 SATs results to those they achieved at the end of Key Stage 2. The national measure for expected progress is '0'. Anything below this is below national standards and scores above 0 demonstrate greater than expected progress.

We are particularly pleased with the number of children who achieved *above* the expected standard in maths and writing. Our percentage is significantly higher than the borough and national percentages. Our results in this area also demonstrates an improvement compared to the level of attainment achieved at this higher standard/greater depth level the previous academic year.
